LEWIS BAKER & CO. THURSDAY, FEBRUARY 6, 1973.

A BILL has been introduced in the Legislature of Wisconsin, making it a misdemeanor for a state officer or member of the Legislature to accept a free railroad pass, offenders to be punished tells what would become of their will pass without opposition.

we want now more than anything else man, and he should show that enough side, his wife's mother's side, his own accommodations, as well as the present salary, are altogether too limited."

THE Rev. D. L. Huston, of Baltimore, whose case has been the subject have a formal trial before the General Conference of the Methodist Episcopal Church next March. The libel suit Wheeling and go to Bellaire for funds for one hundred thousand dollars, instituted by him against the Baltimore American, has been postponed for the second time.

THE Pennsylvania Legislature bas passed a resolution instructing the Senators and requesting the Representatives of that State in Congress to vote against the postal telegraph scheme that was advocated by Postmaster General CRESWELL in his recent report. We are under obligations to State Sen ator Rutan for a copy of his speech in advocacy of the resolution. It is an admirable statement of the objections to the scheme, and its argument appears to us to be unanswerable.

THE Constitutional Convention Pennsylvania is discussing the propriety of omitting the word male from the list of qualifications of voters, and the chances seem to be in favor of submitting the question to the people of the State as a separate proposition. The word white in the same section of the Constitution has been dropped by common consent and almost without debate. The Convention is making good progress in its work and the new Constitution is expected to be a model instrument and embrace all of the modern improvements.

Appropos of the management of the Union Pacific railroad, EDWARD SIM-MONDS, of New York, who was at one time Superintendent of rolling stock of with or restricts the sale of leaf tobacco that road, now states that from 1865 to at wholesale and in bulk for all pur-1871, second-hand locomotives were poses of manufacture and trade, but on sold to the company by P. G. BUTLER, of Boston, as first class engines, the company paying \$16,000 or \$17,000 houses, which, under the previous law, apiece for them, notwithstanding Sim-MONDS' report to the contrary that the ment would be entirely superfluous.

In Kentucky the people are preparing for the education of the colored duced into the Legislature which provides for a system of common schools for negroes, these institutions to be distinct from the white schools, and suptax of fifteen cents on every hundred dollars of property owned by persons of African descent, half of the proceeds of any distribution of lands by Congress, and all the donations or grants that may be made to the cause.

PROPORTIONAL representation was given prominence in the inaugural message of Governor HENDRICKS, of Indiana, and a bill has been introduced into the Senate of that State applying the principle to the election of Commisappears in the fact that it has increased whether he will get his seat in the Senthe actual representative basis of the ate. But the public we believe, are waking up to the moral dangers gradually encircling the country-much more so than Senator Pomeroy and his canting crew imagine. But if it were not, it was a sublimely stupid thing for so sharp an old sinner as Pomeroy to play such a reckless game at bribery. We cannot account for it only in the aphorism that whom highly respectable gentleman and lady the gods wish to destroy they first make

The President and Cabinet on a Tour.

The President informed the delegation from Georgia, who waited on him a few days ago, that it was his intention to make a tour through the Southern States, starting from Washington about the 20th of March, via Richmond, Raleigh, Columbia, Charleston, Savannah, Montgomery, Mobile and New Orleans. Internal Revenue Commissioner Douglass gives the following in reply to interrogatories bearing on the points In the opinion of this office the law

poses no bar to a sheriff selling or offering for sale leaf tobacco, acting under order of the court, or any legal process authorized by State law, to any person desiring to purchase the same in bulk Any person may purchase leaf tobacco in bulk at a sheriff's sale, or at a sale ordered by an executor or administrator, or a planter may purchase the

joint interest which another planter may have in a crop of tobacco without becoming liable by such a purchase, under the internal revenue law, to pay a special tax therefor. This liability to pay special tax as a

leaf dealer does not attach to the act of vailing, however, and he expurchasing, but to the act of selling, pired in a few moments, havand then only where the sales are so requent and of such a character as to constitute a "business," such easual or incidental sales of leaf tobacco as referred to in your inquiries are not construed as constituting a business. A casual or incidental sale of manufac-

tured tobacco, put up and stamped as required by law, may be made by a sheriff, or any other person, without incurring any liability to pay a special tax therefor. In the opinion of this office the act

of June 6, 1872, in nowise interferes all taxes on sales of their leaf tobacco made through agents or commission they were required to pay.

The retail leaf clause forbids a farmer or planter, or any other person, to sell engines were dear at \$5000, besides be- leaf tobacco directly to a consumer, or ing unfit for any decent work. Com-ment would be entirely superfluous. to a tobacco or cigar manufacturer who has not paid a special tax as such, and otherwise properly qualified. The intent of the provision, as I understand it, and the only intent of the retail clause, was to require all tobacco conpopulation, and a bill has been intro-sumed in the country, whether in a manufactured form or in the raw and natural or leaf state, to pay about the same amount of tax. Under that clause planters, farmers or gardeners cannot peddle or otherwise sell directly to conported by a fund accruing through a sumers and manufacturers, particularly manufacturers of cigars, cannot obtain leaf tobacco to be manufactured into cigars in fraud of the internal revenue law. The manufacturers of the country, to whom the planters look to become ultimately the purchasers of their crops mainly, are largely protected in their business by the provisions of law referred to, and to the same extent the revenues of the government are in creased.

Hausas Senatorship-Ingalis Charged with Bribery.

There appears to be no end to the troubles that come to the Kansas Sensioners in the different counties of the ators. It seems that Ingalls, the Sen-Commonwealth. Born Houses of the Legislature of Virginia have now passed a bill which exempts an uncle's widow and a nephew's widow from the provisions of the law which has heretotore existed prohibiting marriages "between certain degrees of relationship." The action was in- Window Shades, tended especially to meet the case of a of Prince Edward, who were married out of the State of Virginia, and who, under the old law, could not live together as man and wife. A man may now marry his uncle's widow or his nephew's widow in that State.

In the absence of the chaplain of the Texas Senate a few days ago, the Senators are reported to have stood devoutly during the clerk's reading of the journal, and to have responded "Amen" when he had finished, never doubting He will be accompanied by his entire but that it was the same thing as the customary morning prayer.

C. S. Bushnell, a woluntary witness, followed. There were several important points elicited by his examination, the most important, probably, being his reference to General Dix. the market.

This community was shocked on Friday last by learning of the sad and untimely death of Mr. Walter Shirley, a highly respected and well known citizen of this county, and brother of our Delrelating to the sale of leaf tobacco op- egate in the Legislature, James W. Shirley, Esq. It seems, from what we can learn, that Mr. S. started for home from the residence of Mr. Philip Gordon, at about dusk on Thursday evening, and a short time afterwards was Watson, by a little son of Mr. Gordon's, with his head cut and his body otherwise injured, having been thrown from his horse against a tree. Mr. Gordon immediately repaired to the spot and removed him to his house, where every effort was made to bring him consciousness. All was unaing never spoken after the accident. The friends of the deceased have the sympathy of the entire community in their sad bereavement. His remains were attended to the grave on Sabbath last, by a large concourse of relatives and friends .- Spirit of Jefferson.

SPECIAL NOTICES.

The True Basis of Success. Fallacies and trauds are short lived. They may flourish for a little while, but the sober second thought of the people condemns them and they perish. It would take even the "Lightning Calculator" a long while to count the imitations and counterfeits of the supreme tonic of the age, Hostetter's Stomach Bitters, that have been brought out since the first introduction of that celebrated remedy. They have collapsed one after another, but the great vegetable preyentive and curative is still on its disease-conquering march. At this sesson, as the air becomes more and more chilly, and searching vapors affect the integuments and create unwonted pains in the stomach and bowsis, it is of the utmost importance to tone and regulate the system so as to enable it to bear up against the uncongenial temperature which produces these disturbances. Fever and ague, rheumatism, biliousness, nervous prostration, costiveness and chronic indigestion are a few among the many disorders which yield readily to this famous restorative. the "Lightning Calculator" a long while to
